

The Z Skin Repair Series for problem skin is a skincare series with the patented enzyme, Zonase, which has well-documented caring and repairing properties for all skin types. It is especially effective against sore, dry, and irritated skin. Zonase was discovered almost by accident by scientists at the University in Bergen, Norway. They had noticed that women at a salmon breeding facility had unusually smooth and soft hands, despite working in cold water all day. The skin seemed to repair itself; even many with problem skin became better. The scientists found an enzyme, which they named Zonase, in the salmon eggs that break down the shell at hatching, without injuring the embryo. On our skin, Zonase breaks down dead skin cells on the surface and brings forth new, healthy skin.

Z Skin Repair and Zonase - a patented solution for problem skin - a wise choice when you want to do something good for your skin.

Z Skin Repair is a series of six products containing no parabens, perfumes or dyes, and all with a precisely balanced composition of Zonase, vitamins, minerals and oils for each separate area of use:

Z Skin Repair Extra Intensive Cream counters difficult rough, raw, cracked, dry or irritated skin. It contains mineral oil that leaves a protective film over the skin.

Z Skin Repair Kids Sensitive Cream is adapted to children's sensitive skin and to adults with extra-sensitive skin. It is based on vegetable oils and the marine collagen, Smids, which allows the cream to penetrate into the skin to supply moisture, while it strengthens the skin's moisture barrier.

Z Skin Repair Shampoo is a moisture-preserving shampoo for hair and scalp. It is enriched with chamomile, sage, rosemary, melisse and hop. It is good for the hair and problem scalp conditions.

Z Skin Repair Scalp Lotion Spray. Because a dry and sore scalp can be the cause of dandruff and lifeless hair, this overnight spray contains ingredients to reduce irritation and itching of the scalp.

Z Skin Repair Hand & Nail Cream is used for dry hands and cracked cuticles, which are two of our most difficult skin problems.

Z Skin Repair Lip Balm works as a preventative and nourishes, working on the surface and below.
