

Z Skin Repair Hand & Nail Cream is a product you should try if you have dry hands or problem cuticles. This cream contains Zonase X, which removes dead skin cells, and is combined with a number of moisturizing ingredients, such as aloe vera, soy, vitamin A, and beta glucan. The result is a cosmetic cream that gives the skin suppleness and keeps it soft, healthy and youthful longer.

Z Skin Repair Hand & Nail Cream is made without parabens, dyes or perfumes, but the cream has a discreet fragrance of lemon and lime from ethereal oils. It comes in a 50 ml tube.
